Wading Pool Rules

Wading pools have a maximum depth of 45–60 cm (18–24 in.).

For the safety and enjoyment of all participants, the following rules will apply at all Community Services Department operated wading pools:

- Wading pools are for children 12 years of age and under.
- Children **under 5 years of age must** have a parent/guardian or caregiver 12 years of age or older actively supervising them at the pool.
- Appropriate swimwear is required (i.e. swimsuit, shorts).
Note: Young children must wear tight-fitting rubber pants over disposable or cloth diapers **and** bathing suits to ensure fecal matter is contained. “Little Swimmers” with a bathing suit are also acceptable.
- Children under 5 must be **actively** supervised when using the slide.
- Children must slide feet first.
- One child permitted on the slide at a time.
- The bottom of the slide must be clear prior to the next child descending.
- Persons infected with a communicable disease or having open sores cannot enter the water.
- Do not drink water from the spray features.

The following are **not permitted** at a wading pool site:

- Glass containers or food in or around the pool area.
- Play that may be deemed hazardous to other persons in and around the pool facility (e.g. no running, diving, spitting/spouting water, etc.)
- Pets.
- Smoking.
- Alcohol/drugs.
- Bicycles/skateboards/scooters/in-line skates, etc.
- Sand, due to its effect on water quality.
- Abusive/profane language.

Every effort will be made to help participants/groups understand the importance of safety at the wading pool. The Community Services Department reserves the right to restrict participation for a designated time period in the event behaviour becomes a safety concern.

We understand the importance for families and friends to capture precious moments in a picture. To ensure it is a positive experience for all patrons, specific procedures are required when using video and photographic equipment such as cameras, video cameras, camera phones, etc. For more details, please consult the Wading Pool Attendant.

wadingpools@winnipeg.ca

Age Restrictions at Wading Pools - Rules Regarding Underage Children

Due to the level of risk involved in all water environments and to ensure the safety of all participants, the City of Winnipeg Community Services Department has established the following rules for children using the wading pool:

- Children **under 5 years of age must** have a parent/guardian or caregiver 12 years of age or older in attendance with them at the pool.
- Children arriving onsite without suitable supervision will be asked to leave the wading pool area until they can return with an appropriate parent/guardian/caregiver.
- The parent/guardian/caregiver must be **actively** supervising the children at all times.
- Active supervision includes being in the water with the children within arm's reach.
- The Wading Pool Attendant has the right to allow or prevent access to any part of the pool or the pool in its entirety should there be any safety concerns regarding the patron's use of the facility.
- Wading Pool Attendants have complete authority.

Role of the Parent/Guardian

Appropriate parent/guardian supervision is recommended at all times. The safest place for parents/guardians to be is in the water, within arm's reach of their child at all times. Young children may be in lifejackets or personal flotation devices but they must always be within arm's reach and in full sight of the parent/guardian. Additionally, it is recommended that older children should be supervised even if they are strong swimmers and never left unattended or out of the parent/guardian's sight while in the water. When parents entrust the supervisory responsibilities to a guardian they should ensure that the guardian understands and accepts the responsibility they are given. Wading Pool Attendants are a trained and skilled supplement to the recommended parent/guardian supervision of children in the water. By following this simple advice, parents/guardians also play a role in keeping children safe so they can get the most enjoyment while at our aquatics facilities.

(Source: Within Arm's Reach)

Closing Procedures

Draining of the wading pool is coordinated with the time the pool closes. Staff will begin draining the pool prior to closing and as a result, there will not be a full basin of water at closing time. Children will be permitted to stay in the wading pool while it is draining under the following conditions:

- Children do not play near or sit on the drain.
- There is no whirlpool present.
- The attendant does not have to leave the wading pool area to attend to other facility requirements.

If, for any reason, the attendant must leave the pool area, the attendant will clear the wading pool of all patrons until he/she has resumed visual contact of the pool.

Wading Pool Closures

All wading pools are closed on days when Environment Canada forecasts either:

- a projected high of 21°C or lower
or
- a probability of precipitation of 70% or greater.

A wading pool may be closed throughout the day if any of the following conditions arise:

- The weather turns to thundershowers.
- Lightning and/or thunder are present.
- Water, electricity, access to a phone for emergencies, first aid kit or washroom facilities are not available.
- Foreign material is found in the wading pool water such as glass, fecal matter, vomit, animals or blood, which can affect pool water clarity and quality.
- Maintenance problems (e.g. pump damage, no drain cover).
- The chlorine level is above or below the standards set by the Manitoba Public Health Act.
- The wading pool has not met Manitoba Public Health requirements.

All wading pool closures will be listed on the web at Winnipeg.ca or call 311 after 10:30 am each day.

Bathing Capacity at Wading Pools

- For the safety of all patrons on site, the bathing load will be enforced by the Wading Pool Attendant.
- Bathing loads are established by the Manitoba Public Health Act.
- “Maximum bathing load” means the total number of persons permitted in a swimming pool or other water recreational facility at any one time.
- If a person arrives on site and the wading pool is at bathing capacity, they will be required to wait until space becomes available.

Rules for Groups

Wading Pool Rules apply to all patrons. However, additional rules specific to group use are in place when groups are utilizing wading pools.

Group Responsibilities

1. Group Leader-Child ratios must be adhered to when the children are in the water and surrounding area. Group leaders must be actively supervising their group. Where two or more leaders are present, one leader must be in the water and the other supervising from the deck (unless ratios determine otherwise).

Ratios have been established as follows and are not negotiable:

Age of Children	# of Leaders Required	# of Children
Infant to 1 year	1	1
2–3 years	1	2
4–5 years	1	5
6–9 years	1	8
10–12 years	1	12

Mixed ratios do not apply at wading pools due to the serious safety concerns present in an aquatic setting. For example, two leaders are required for a group of 8 children where seven are 8 years of age and one is 4 years of age.

2. If a group arrives onsite and the wading pool is at bathing capacity, groups will be required to wait until space becomes available.
3. Groups will be **limited to a stay of 2 hours** should other patrons be waiting for entrance.
4. Group leaders are responsible for the behaviour of the children they bring to the wading pool, including any disciplinary actions. The Wading Pool Attendant does have the authority to speak to the children directly if necessary.
5. Groups are welcome at wading pools city-wide.
6. Groups failing to comply with the Rules for Groups will not be permitted to use any city wading pools until the appropriate safety provisions are in place. Every effort will be made to work with groups to ensure a safe environment for all patrons.

Spray Pad Rules

Stand-alone spray pads are unsupervised.

- Children under 12 years of age must be accompanied by a parent/guardian.
- Footwear is strongly recommended.
- Bicycles, skateboards, scooters and in-line skates are not permitted in the area.
- For safety reasons, glass is not permitted.
- Please, no pets.
- People with a communicable disease shall not use the spray pad.
- Do not drink water from the spray features.

For maintenance issues at spray pads, please call 311.

Kildonan Park Pool

Opens June 15

Your summer wonderland awaits — there really is something for everyone! Situated in the heart of Kildonan Park, our 50-meter pool features a beach entry, three 1-metre diving boards and two flume slides. We offer 21 spray features and a wading pool. There are two specialty change rooms, indoor and outdoor showers and 25¢ coin-refundable lockers. Payment is required for each person entering the pool area, for all caregivers going into the water as well as those that will be supervising on deck. Bring snacks and beverages or maybe even a picnic lunch and spend the day with us. No glass is allowed in the pool compound so be sure to pack plastic dishes and other non-breakable picnic refreshments and supplies.

Due to the popularity of this facility, pool capacity is often met early in the day; come early to avoid line-ups.

Please enjoy the new outdoor playground before or after your swim.

Please note that anyone leaving the pool compound will have to line up and pay to be re-admitted.

Groups of 9 or more people or any organized program/event attending an aquatic/active living facility during public swim or for rentals must book 10 days in advance and adhere to public/group/school admission requirements. Group bookings at Kildonan Park Pool are available 10:00 am–Noon or after 5:00 pm. Please call 311 to book your safe and enjoyable aquatic experience at this great facility.

Please ... Practice Healthy Swimming Behaviours:

- Do not go swimming if you are feeling unwell, especially if you have an upset stomach.
- Shower with soap before swimming; wash your hands after using the toilet or changing diapers.
- Non-toilet trained infants/toddlers and special needs/adult patrons who experience incontinence must wear leak-proof swim pants or garments of a similar nature.
- Take children for frequent bathroom breaks.
- Change diapers in the change rooms and not at the pool side. Dispose of diapers properly and clean up the diaper changing area.
- Avoid swallowing the pool water or getting water in your mouth.

Mobile Play Van July 4–August 12

Children 6–12 years of age are invited to join us for some summer fun. Activities include arts, crafts, games and sports.

Outdoor Pool Admission Rates

	single admission	outdoor monthly	outdoor season pass
Child 12 & under	\$2.75	\$16.00	—
Youth 13–17	\$4.25	\$32.00	—
Adult (Prime Time)	\$6.20	—	—
Family	\$12.10	—	\$93.00

Family admission rates apply to 2 adults and their dependant children (under the age of 18) all residing in the same household.

Outdoor passes can be used at outdoor pools only.

Facility admission passes can be used at both indoor and outdoor pools.

Outdoor Pool Closures

All outdoor pools are closed on days when Environment Canada forecasts either:

- a projected high of 20°C or lower
- **or**
- a probability of precipitation of 70% or greater.

Check Winnipeg.ca after 10:30 am each day for most current outdoor pool information.

An outdoor pool may be closed throughout the day if any of the following conditions arise:

- The weather turns to thundershowers.
- Lightning and/or thunder are present.
- Water, electricity, access to a phone for emergencies, first aid kit or washroom facilities are not available.
- Foreign material is found in the wading pool water such as glass, fecal matter, vomit, animals or blood, which can affect pool water clarity and quality.
